

07th August 2015, Varna

**PROJECT INTEGRATED INFORMATIONAL SYSTEM IN SUPPORT OF
COASTAL ZONE MANAGEMENT (IISSCZM),**
funded under programme BG02 *Integrated marine and inland water management*,
Priority BG02.01: *Integrated marine and inland water management*, co-funded by the
European Economic Area Financial Mechanism (EEAFM) 2009-2014

BULNAS representatives took part in the presentation of PROJECT *INTEGRATED INFORMATIONAL SYSTEM IN SUPPORT OF COASTAL ZONE MANAGEMENT (IISSCZM)*, funded under programme BG02 *Integrated marine and inland water management*, Priority BG02.01: *Integrated marine and inland water management*, co-funded by the European Economic Area Financial Mechanism (EEAFM) 2009-2014.

The main goal of the project is to improve the integrated coastal zone management (ICZM) by building an integrated information system, designed to collect and disseminate data coming from different static and dynamic systems.
